-Some discussion about Spartan Target Conferences and the 7th Grade Registration day. There was also some discussion about the SaJHS PTO fundraiser week. Dave updated the council on the traffic study and the four-way stop by the school. We discussed how the city and the district might move forward with this issue.

-Dave explained that SCC Lorraine Rupper has accepted a counseling position with another school and will no longer serve on the SaJHS SCC. The SCC wished her well in her new position.

Finalize SIP Goals – Dave

We have been discussing the SIP goals during our meetings, and this month, we went through them one more time. We specified that a “quarterly” survey to the faculty about technology should be done rather than a one-time survey. There was some clarification about the use of technicians in classes mentioned in the SIP. Wendy expressed a desire to do more for the students who are not necessarily struggling academically in order to help them improve and grow.
