Welcome and Review of Upcoming Events (Rebecca)

SCC Concerns (Rebecca)

-Dave reports that the city may pay for a crossing guard at our problematic four-way stop. Matt Gledhill (the district's operations guy) is helping with a traffic study.

SIP Goal Review

-Dave explained what we thought was extra money is actually needed for intern insurance costs. We never know if interns will take district insurance or not, so Dave wants some money to cover these costs for next year. This year we are still fine with our budget.

-Wendy asked if it is possible to have a "Plan B" in case future interns do not take insurance. Dave thinks we can add \$3,000 to each intern cost and we will be safe. This means \$26,000 for each intern and not \$23,000.

-Remind teacher with technician to use SLO data for Goal 4.

-Survey for Goal 2. Wendy asked if we could or should provide digital coach with training. We might research what kind and the potential cost of training. Can we get sponsors for this training? Melanie mentioned Adobe.
