### Valley View Logo

David Knudsen presented logos that incoming Valley View students have created for the council to vote on. The council narrowed down the options and David will take it back to an illustrator to have her combine some of the ideas.

### School Improvement Plan (Trust Lands)

We have a draft of a plan. Keith and Cecily reviewed the new format: an umbrella goal, action items, not attaching percentages, etc. Keith read each goal.

- We discussed the best way to measure professional development as a goal. Is there a reflection that teachers could fill out to show how it will benefit them and their students? Keith explained that it isn't inappropriate to have teachers return from a conference and share their learning. This could be something that we have teachers do during our monthly PD. We'll look at this goal.
- Michael felt like goal #4, which reviews technology, has a good measurement attached to numbers. We discussed that we have a district digital coach, but he isn't part of this plan because he is paid for by the district.
- Goal #5 combined two ideas: student mental health and teacher support. We discussed what a sensory room might look like. Lisa asked if kids would really use it or if they would worry about being stereotyped. Cameo talked about how this generation carries less of that stigma. We talked about what a sensory room might look like. The council felt like these were great ideas for helping teachers and students. Rebecca asked if there was a way to give feedback to the universities to help new teachers understand how to help students deal with trauma.

### Future agenda items?

- Comprehensive Guidance Review – How it went!
- Budget for Trust Lands
